

# COMPLICATION PROTECTION

VISIT [BLISCARE.COM](http://BLISCARE.COM)  
FOR OUR FAQ PAGE

### What is the BLISCare Protection Plan?

Only approved physicians qualify for the BLISCare Protection Plan. This plan provides protection for both physicians and patients should a complication from a surgical procedure occur.

### What does BLISCare Protection do for you?

At no fault of the physician, facility, or patient, a certain number of procedures inevitably result in complications, whose medical bills can be devastating to the patient. BLISCare pays for the medical bills related to a covered complication including facility fees, professional fees, rehabilitation, and any other ancillary costs as directed and approved by your surgeon.

**In the event of a complication, please contact your physician or practice as soon as reasonably possible.**

### Vertical Sleeve, Band to Sleeve, Sleeve to Sleeve Revisions

Included Complications:

- Cardiopulmonary
- Thromboembolic
- Bleeding
- Infection
- Leak
- Perforation
- Stenosis/stricture

### Gastric Bypass, Band to Bypass, Sleeve to Bypass, Bypass to Bypass Revisions, Duodenal Switch

Included Complications:

- Cardiopulmonary
- Thromboembolic
- Bleeding
- Infection
- Leak
- Perforation
- Stenosis/stricture
- Obstruction

BLISCare insures the physician and not the patient. Restrictions and limitations apply including, but not limited to, the requirement that the patient (consumer) return to the operating surgeon if practical. Leavitt Risk Partners reserves the right to change terms and conditions without notice. Coverage allows the surgeon to authorize and provide medically necessary healthcare for covered complications at no additional cost to the patient up to the approved protection limit.

Leavitt Risk Partners is authorized as a managing general underwriter for highly-rated insurance carriers. The insured under the policy is the surgeon and the risks covered are designated post-surgical complications occurring within designated time limits.

**For protection limit, period, and cost, please contact your physicians office**
